

BOYS & GIRLS CLUB
OF LEWIS COUNTY

2021

COMMUNITY IMPACT REPORT

Programs

Boys & Girls Club of Lewis County is open after school and during the summer to provide children and teens with a safe place to go where they can connect with caring adults. Professional staff and volunteers use a combination of locally developed programs and those developed and tested nationally by Boys & Girls Clubs of America in the following Program Impact Areas: **Academic Success, Character & Citizenship, and Healthy Lifestyles.**

Our Mission

To enable all young people, especially those who need us most, to reach their full potential as productive, caring, responsible citizens.

Our Vision

To provide fun and safe places for youth throughout Lewis County where life-changing experiences happen every day.

A letter from our Executive Director

Dear Friends, Colleagues and Supporters,

I know we had hoped that the year 2021 would bring more normalcy and ease to everyone. Unfortunately, many of the struggles we faced in 2020 grew in 2021 putting more burden and stress on the families and the youth we serve.

However, I'm so proud to report that thanks to many in our community, Club was able to continue to respond and help youth and teens overcome the challenges they faced. Over 200 Club members received hundreds of meals and after school snacks, many hours of academic support and enrichment, and countless opportunities for unforgettable memories.

I truly believe Club has provided youth, teens and families skills and resources needed to avoid and/or be able to cope better with the stresses on everyone's mental health, allowing our members to succeed at school, athletics, other extra curriculars, relationships, and more!

Thank you for your continued support. We look forward to another year helping our students be resilient and hopeful for a bright future!

Club By The Numbers

2021

These numbers are impressive, but they don't reflect the most amazing thing about Club this year which was our staff's continued commitment and passion for serving our youth. Staff continued to flex and pivot, sometimes on a daily basis, to make sure Club could safely stay open during the hours our families needed.

Perseverance

Our Continued Pandemic Response:

- Continued providing full-day services for the remainder of the 2020-2021 school year
- Helped students attend their virtual classes as well as complete their homework assignments
- Provided breakfasts and lunches during full day services (January-August)
- Staff and members continued to implement and follow increased infection control measures such as 100% mask use, increased cleaning and disinfection of facilities, and social distancing
- Club increased staff to student ratios to support mandated student cohort sizes
- Returned to an after-school program when schools returned to in-person learning but adjusted our hours of operation to match new school schedules related to bussing shortages
- Worked with community partners to recruit and hire professional staff during continued national staffing shortages to ensure Club is able to remain open each scheduled day

We are extremely proud of our staff, members, families and community for doing whatever it takes to keep Club open and operating safely!

BREAKING GROUND

This past spring, we were honored and excited to be involved in the groundbreaking ceremony for the United Learning Center. This new center located in downtown Centralia will house a Boys & Girls Club, a tuition free, early-learning program, a children's museum, a community gym and recreation space, and space for additional healthcare related partners to work together to serve youth and families. Club specifically will provide an additional 100 spots for youth and teen membership. Construction will continue through 2022 with our grand opening expected in 2023!
